The Needs
of the
Foreign Mission Board

NOTE. The figures given for the amount needed to send out missionaries include not only the salaries but equipment, outgoing expenses, language study and house rent for the first year. Please bear this in mind in examining the enclosed needs for missionaries.

THE NEEDS
of the
FOREIGN MISSION BOARD

By THE SECRETARIES

FOREIGN MISSION BOARD
SOUTHERN BAPTIST CONVENTION
RICHMOND, VIRGINIA

An Exhibit and Why It Is Made

THE Foreign Mission Board submits herewith certain itemized needs of the work which has been committed to its care. We have tried to set down honest figures for actual needs, and have made as careful estimates as we can of the amount of money, in American gold, that will be required to take care of these. The items for all the fields were listed after diligent surveys were made and may be accepted as reliable. They are vouched for by the Board and the missionaries on the fields. We do not believe that there is a fictitious figure put down for any field. The items represent some of the accumulated needs of a great and manifold work which has had to wait long on the denomination for adequate equipment and reënforcement. We do not believe that the denomination has yet realized how it has failed to keep up with the necessities of its Foreign Mission work.

As a help to an intelligent and sympathetic study of these items, brief but careful annotations of them have been made.

It will be noted, too, that the needs of the present work and of the new fields which we ought to enter at once are separated in the lists given.

These items and estimates are thus carefully made and placed in the hands of the messengers of the Convention to furnish them a rational and practical basis upon which to make a program for the care of this great work. The Foreign Mission Program which this Convention makes should be based on a knowledge of actual needs and not on any sentiment, and must be made large enough to provide for such needs. We ask for a careful examination of what we have been at pains to prepare for the guidance of the messengers in their deliberations.

A careful list of the needs of all fields is presented in order that (1) provision may be made for all fields and stations alike with the utmost impartiality; that (2) if the Convention attempts to provide for these necessities, individuals, churches, missionary societies, Sunday schools, etc., may select from these objects, which represent the most urgent needs of the work, such as appeal to them; and that (3) the leaders at home and the missionaries on the field may combine their appeal for the same objects and in support of the Convention's program. The missionaries have helped to catalogue these needs and have agreed to confine appeals to the home constituency to such objects as have been approved by the missions and the Board.

If the Convention decides to make provision for these, the Board will recommend them to contributors for their gifts and for individual adoption where donors request that specific objects be assigned them. If the Board can have the coöperation of all the missionaries and all contributors in accordance with the agreement that all contributions are to apply to approved objects only, we shall be able to administer the work with impartiality for every missionary and with a view to greatest need and the welfare of the work as a whole. For the present these needs are stated for the benefit of the Convention.

No one but Southern Baptists will provide for the needs which are here given. Therefore, we call upon the Convention to give them careful consideration and to make a program which is big enough to care for these needs. Besides these needs which the missionaries feel keenly, there are many others, and there is room for indefinite and unlimited expansion in fields of inviting opportunity and saddest destitution if Southern Baptists can be induced to furnish the money and men and women can be found to enter them.

The Foreign Mission Board feels that it is discharging a responsibility to the Convention which appoints it, and the constituency which supports it, when it thus lays the facts about its work before them. The Board assumes no right to make a program for Southern Baptists, but it does acknowledge its duty to furnish the denomination information concerning that department of the work with which it is particularly charged.

We invite correspondence concerning any object which is here listed.

J. F. LOVE,
Corresponding Secretary.

AFRICAN MISSION

PROPERTY NEEDS

Residence for Missionary, Abeokuta

\$2,500

When the Pinnocks return to Abeokuta in the summer of 1919, they will have no house in which to live. They will be forced to rent quarters, which is a very serious proposition for a missionary in that climate. This building ought to be provided at once.

Enlargement Girls' School, Abeokuta

\$3,000

The Judson Centennial is to provide a dormitory for the Girls' School at Abeokuta. The rapid progress of this institution has made it necessary for us to provide for it still another building. This is our one school for girls in Nigeria and should be developed into the highest efficiency.

BAPTIST BOYS' ACADEMY, OGBOMOSO, AFRICA
(This School Needs a Building)

Missionary Residence, Oyo

\$2,500

Missionary George Sadler will soon be returning to his work in Oyo and must have a house in which to live.

Residence for Evangelistic Missionary, Ogbomoso

\$2,500

Another evangelistic missionary family is to be sent to Ogbomoso to look after the evangelistic work in that vast field. There is no house in which he can live. We must build him one.

Building for Boys' Academy, Ogbomoso

\$5,000

The growth of the Boys' Academy at Ogbomoso has been a source of great encouragement. It grew in spite of the fact that it had practically no equipment. More land has been acquired and it is necessary to provide a good building in which the work of the school can be carried on. It is our leading boys' school in Africa. This is an important and urgent need.

Residence for Vice-Principal of our Theological Seminary, Ogbomoso

\$2,500

Another man is to be sent to Ogbomoso to help in the Theological Training School. He must not be put into one of the native houses. There is no missionary residence. One must be provided for him.

Residence for Evangelistic Missionary, Iseyin

\$2,500

The Mission has decided to place in this important city a missionary. It is a most inviting field. The missionary cannot be sent unless a house is provided for him.

High School Property, Lagos

\$30,000

Lagos is the greatest port city on the West Coast of Africa. Our work has grown in that city and vicinity, even though we have not had a foreign missionary located there for many years. Native self-support has developed nicely. It affords a most unusual opportunity for a Boys' High School. It would draw students from hundreds of

millions up and down the Coast and from far interior. The money requested would be used as follows:

For remodeling the present school building for a
Primary Department\$ 5,000
Lot and building for the High School..... 25,000

NEW MISSIONARIES

Family for evangelistic work, Ogbomoso.....\$2,900
Trained Nurse, Ogbomoso..... 1,550
Family for Theological School, Ogbomoso..... 2,900
Single woman for Woman's Work, Oyo..... 1,450
Family for school at Lagos..... 2,900
Family for evangelistic work, Iseyin..... 2,900

ARGENTINE MISSION

PROPERTY NEEDS

Church Building, Rosario

\$1,000

Three thousand dollars has been provided out of the Judson Centennial for this building, and the church is laboring heroically to supplement the amount. The \$1,000 here requested is urgently needed to complete the building. When the building is finished the church will be practically self-supporting.

Building for Once Church, Buenos Aires

\$30,000

A good building lot upon which there is an indebtedness of \$5,000 has been secured. The amount paid on the lot was furnished by the Judson Centennial. On this lot was a barn which has been remodeled for the use of the church. Surely, in the largest city in South America the Baptist cause should not be represented by a remodeled barn as a church house. Never until we have a building in keeping with our surroundings can we hope to impress the community as we should. Five thousand dollars is needed to complete the payments on the lot and \$25,000 to aid the church in erecting a good church building.

Theological Training School Building, Buenos Aires

\$12,500

In Argentina, as in all other countries, we must train our preachers, if we expect to have an effective native ministry. The \$12,500 requested here would give our Theological Training School modest but comfortable quarters in which to do the great work it is called upon to do. The school is small, but growing.

Land and Building for High School, Buenos Aires

\$25,000

As the Bible School is necessary for the theological training of our ministerial students, so the high school is necessary for their literary training. The high school is needed also for the training of our laymen. It is necessary to have the amount here named, over and above the \$10,000 provided by the Judson Centennial Fund.

Building for Southwest Church, Buenos Aires

\$15,000

The Judson Centennial will provide a lot for this church, and money is very urgently needed for the erection of the building. Buenos Aires is a city of more than a million people, and if we expect to make an impression on it we must get out of rented stores and erect buildings that are fitted for the work. The Southwest Church is prospering beautifully and greatly needs the amount requested.

Boys' Academy Building, Rosario

\$5,000

It will be necessary for us to build in several centers in Argentina schools of the Grammar School grade, from which will come students who will enter the High School in Buenos Aires. One of these Academies should be established at Rosario.

Church Building, Mendoza

\$5,000

Mendoza, on the western edge of Argentina, is a very important city. Our work there is prospering, but is in critical need of respectable and effective quarters in which to do its work. The sum requested is very modest. This amount will secure land and provide a building through the aid the natives will render.

Church Building, Montevideo

\$20,000

Montevideo is the capital of Uruguay and is a city of first importance. The Judson Centennial will provide the lot for the building, but the church will have to have the aid here requested in order to enable it to provide itself with a church house. In this up-to-date and beautiful city we ought to have a worthy church home.

NEW MISSIONARIES

Family for Cordoba.....	\$3,600
Family for High School, Buenos Aires.....	3,600
Family for general evangelistic work.....	3,600

NORTH BRAZIL MISSION

PROPERTY NEEDS

Church Building Loan Fund

\$3,000

The missionaries of North Brazil have been greatly encouraged over the response the natives have made to the advantages offered by the Church Building Loan Fund organized by that Mission. With the amount here requested, if given as capital to this fund, it will enable many a church to erect its own building.

Residences for Missionaries

\$32,000

The Board has never built residences for its missionaries in North Brazil. They have been compelled to live in rented quarters or in cramped quarters in school buildings. In that hot and trying climate they ought to have buildings erected with a view to conserving their health and strength. Besides this, rents are excessively high. It would be a great saving if residences could be provided for all our missionaries in North Brazil. Four residences, at a cost of \$5,000 each, are needed at Pernambuco; two residences, at a cost of \$5,000 each, should be erected at Bahia, and one residence at Corrente, far in the interior, should be erected, at a cost of \$2,000.

AGUA BRANCA BAPTIST CHURCH, NORTH BRAZIL

(Illustrating the Need of Loan Fund)

School Property at Bahia

\$15,000

The present quarters in which the school is located are not suitable for school purposes. The building was erected for a residence and is on the side of a bluff. The school should be moved to a different part of the city and put into quarters that would render its work much more efficient. Such a move would bring the school very much closer to its supporting constituency.

NEW MISSIONARIES

Family for educational work, Bahia.....\$3,550

Family for evangelistic work, Para..... 3,550

Single woman to teach English in Pernambuco... 1,775

SOUTH BRAZIL MISSION

PROPERTY NEEDS

Church Building Loan Fund, Rio Grande do Sul Field

\$2,500

During the eight years in which he has been located in the Rio Grande do Sul State, Missionary Dunstan has made wonderful progress in developing the churches in self-support and in providing their own church buildings. The Church Building Loan Fund requested here would accelerate his work very greatly. It would render a splendid service.

Lot and Church, Curityba

\$5,000

An option has been secured upon a lot facing one of the best parks in the important city of Curityba. The request is for only \$5,000 to be used towards the purchase of this lot and the erection of the church building. The local church, though not strong, will complete the project. We ought to stop the heavy rent bill and help provide this church with good quarters.

Lot and Church Building at Campinas

\$5,000

This was one of the first Stations occupied by Dr. Bagby, our pioneer missionary, in Brazil. The city has grown greatly in im-

portance, and the church should have a respectable building in which to worship. The \$5,000 requested would enable the church to provide a building. The need should be met.

Girls' School, Sao Paulo

\$100,000

For several years Dr. and Mrs. W. B. Bagby have been conducting a very successful Girls' School in Sao Paulo. In the reconstruction of our educational plans for Brazil it has been decided that this institution should be conducted as our leading Girls' School in Brazil. It is highly important that the school be properly equipped. The Judson Centennial will provide enough money for the purchase of a campus. The South Brazil Mission, after carefully canvassing the whole situation, appeals for \$100,000 for the erection and equipment of a building that will provide for the needs of this Woman's College. This is a wonderful opportunity.

Church Building Loan Fund, Sao Paulo Field

\$5,000

A number of churches in the Sao Paulo District could be encouraged to erect their own building by the establishment of such a fund.

Church Building Loan Fund, Campos Field

\$2,000

The fine growth toward self-support and the ownership of their

AQUIDANANA BAPTIST CHURCH, SOUTH BRAZIL
(Built Entirely by Native Gifts)

own church buildings in this field assures us that the above-named Church Building Loan Fund will be an excellent missionary investment.

Church Building, Friburgo

\$2,000

Friburgo is one of the most important towns in the Campos field. It is an enterprising place, and during the summer season it is filled with tourists. It is exceedingly desirable that we have a good building in this place. The two thousand dollars would be supplemented by the local church.

Church Building, Nictheroy

\$1,500

This amount is needed with which to supplement two thousand dollars which is provided for this object in the Judson Centennial Fund. Nictheroy is the capital of the State of Rio. The church will do a liberal part.

Victoria School

\$25,000

Victoria is the capital of the important State of Espirito Santo. Here we have a unique opportunity, as our's is the only denomination operating in the State. We have a school for boys and girls at Victoria which has trained already a good many teachers and other native workers. It should have a plant that would provide for two Boarding Departments and a building for class rooms and administration. The need is pressing.

Church Building, Bello Horizonte

\$5,000

A lot has been secured for the Bello Horizonte Church, and the amount requested here is needed to aid the church toward erecting a building. Bello Horizonte is the capital of the great State of Minas Geraes, which is one of the most important States in Brazil. Certainly in this State capital we ought to have a good building for our church work.

Carroll Memorial Publishing House, Rio de Janeiro

\$20,000

The Carroll Memorial Publishing House in Rio de Janeiro is a

great institution, founded for the circulation of Christian literature. It publishes Sunday School periodicals, religious papers, tracts, etc., and is a mighty agent for the spread of the Gospel. The Judson Centennial Fund has provided it with a building and very considerable equipment. The money requested is very urgently needed for the expansion of the work. The above-named amount would be expended as follows:

Colportage, per year.....	\$ 5,000
Literature (for expense of translation, creation and circulation of a great volume of litera- ture), per year.....	15,000

Dormitory Rio Baptist College and Seminary

\$40,000

Rio Baptist College and Seminary constitutes one of our greatest mission opportunities. It is located in Rio, the capital of the Republic, a city of a million people. We have recently acquired a most beautiful and spacious campus for this school. Already the Administration Building has been erected, and a number of other buildings are available. Included among these is the Palace of the Baron who formerly owned the property. The school is prospering. One of the greatest needs we have at all is for a Dormitory, which would cost \$40,000.

Residences for Five Missionary Families

\$25,000

It is very important that we provide residences for foreign mis-

CLASS IN GYMNASTICS, RIO BAPTIST COLLEGE, RIO, BRAZIL

sionary families who are teaching in the school. We are paying excessive rents for houses for these missionaries to live in and, even so, are not providing them with satisfactory quarters. We should, by all means, have five missionary residences built on this campus. These residences would cost \$5,000 apiece.

First Baptist Church, Rio de Janeiro

\$100,000

Due to the fact that a hill has been removed from the very heart of the city of Rio, in order to fill in the Harbor, a most desirable piece of property has been put on the market. Here, facing a beautiful park recently created, the First Baptist Church has acquired a magnificent lot. No better location can be found in this great city. In securing this lot the church used most of the \$50,000 given out of the Judson Centennial toward this enterprise. The lot might have been secured at a lower rate if the church had been willing to accept certain favors from the Government. This it steadfastly refused to do and manifested the true Baptist spirit, even though it had to pay more for the lot. Now it is necessary to erect on this lot a building commensurate with the great plans of this church. The building proposed will be used not only for a church, but also for a great Day School. Our missionaries heartily endorse the plan and urge that here is afforded us a most unique and inviting opportunity for rendering a great service. The erection of this building will strengthen our work throughout Brazil. The church will supplement very considerably the amount here requested.

CHILIAN MISSION

PROPERTY NEEDS

Bible Training School, Santiago

\$15,000

While our Board has only recently undertaken mission operations in Chile, Baptist work has been carried on for several years. Already, through the activity of Rev. W. D. T. MacDonald, there have been built up twelve churches, with a membership of 1,467. It is essential that native preachers be trained for the leadership of these churches and for the general development of the work. The Bible Training School is a necessity.

Girls' School, Concepcion

\$15,000

In this new field we must begin early the training of the girls. A beginning for girls' school work can be made on the amount requested. The school will be located at Concepcion.

Church Building Loan Fund

\$2,000

The churches already organized are in desperate need of buildings in which to worship. This modest Loan Fund would greatly encourage the workers and make possible the erection of a number of church buildings.

NEW MISSIONARIES

Two single women for school work.....	3,400

YATES MEMORIAL ACADEMY, SOOCHOW, CHINA

CENTRAL CHINA MISSION

PROPERTY NEEDS

*Additional Building for Eliza Yates Memorial
Girls' School, Shanghai*
\$8,000

The Eliza Yates Girls' School was started by Miss Price in 1897 in Dr. Bryan's barn, with five pupils. It has grown until it now enrolls 162 pupils and has one very good building for its work. This building, however, is not sufficient for the growing institution. A new building is necessary. It is proposed to develop this school into a college for young women. The building requested is a step in that direction. This is an urgent need.

*For Purchase of Land and Erection of Gymnasium, Ming
Jang Boys' School, Shanghai*
\$8,000

We now have to rent land for the playground for the boys in Ming Jang School. It is necessary to secure more land and erect a shed upon it in which physical exercises can be taken. If the school is to expand it must have more room.

Normal School Buildings to Be Erected in Shanghai
\$32,000

Our Primary Schools are suffering for lack of teachers and their

inability when secured for this work. They must be trained. Many main stations and outstations are asking for Kindergarteners. These workers must be trained. Miss Catharine Bryan has been trained for the Kindergarten and Primary Normal Training work and is waiting for equipment. The women of Georgia propose to raise \$15,000 for the equipment of the Kindergarten. Seventeen thousand dollars more will be needed for other buildings and further equipment for the Normal Department.

Shanghai Baptist College and Seminary

\$198,800

This College, located in Shanghai, is supported by both Northern and Southern Baptists. It is the purpose to make this a high-grade college and theological seminary, which will serve all China for higher training. Baptists should have one such high-grade institution in China. We regret to say that Southern Baptists are far behind Northern Baptists in their support of this institution. Two hundred seventy-one thousand six hundred dollars has already been spent upon securing land and equipment. Of this amount Northern Baptists have spent \$191,100, which is \$110,600 more than the \$80,500 Southern Baptists have given. For additional buildings and equipment there is needed \$287,600. In order to bring our part up to that given by Northern Baptists, we should provide \$198,800 toward the amount itemized below. Correspondence is solicited concerning this equipment.

Additional Plant Needed:

Seven dwellings, at \$5,200.....	\$ 36,400
Five dwellings, at \$3,200.....	16,000
To remodel North Dormitory for six families	800

Business Department	4,000
	—————\$ 287,600

Land and Residence for Missionary, Soochow

\$5,500

The house which the Hamletts now occupy is needed for school purposes, and it is necessary to provide them with a house.

Building for Bing Hwo Jao Church, Soochow

\$5,500

This is one of our strategic evangelistic centers in Soochow. The plan is to build a good up-to-date house which will cost \$10,000. The remainder of the money needed has been given by Mrs. Seaman.

Land and Building for East Gate Chapel, Soochow

\$2,000

This work is located in the center of one of the largest enterprising suburbs of Soochow. There is here a great opportunity for establishing a strong church.

Equipment for Five Out-Stations, Soochow

\$12,000

There are several large market towns in which are located weak churches now occupying rented buildings. Our plan is to assist five of the most promising to secure simple but adequate houses of worship, including pastor's quarters. In every case the church will contribute a certain proportion of the outlay.

Motor Launch, Soochow

\$1,600

Most of the roads in the Soochow section are waterways. A good part of the time of the missionary must be spent on slow and often

unsanitary house boats. If we had a good motor launch, our itinerant work could be done more effectively. Much more time could be given to each Station and the Stations could be visited oftener.

Land and Buildings for We Ling Day School, Soochow

\$8,000

This school is for boys and girls and is a feeder for both Yates Academy and We Ling Girls' School, Soochow. It is now in a poorly ventilated rented house, with no playgrounds worth mentioning. We have all the boys and girls in this school for whom we can provide room. The school helps Yates Academy and the We Ling Girls' School to reach the neighborhood for Christ.

Bing Hwo Jao Day School, Soochow

\$8,000

This large Day School on the Compound occupied by the Brittons should have a building in which it can do its work in a satisfactory and effective way.

For Completion of Yates Academy Compound, Soochow

\$4,000

One of the most prosperous of our educational institutions in China is the Yates Academy. It is located well in the heart of Soochow. It needs badly \$4,000 with which to purchase other land, increase its efficiency and at the same time protect itself from undesirable neighbors.

Home for Evangelistic Missionary, Chinkiang

\$4,800

Rev. A. Y. Napier and family have lived in China for about thirteen years and have never had a house of their own. We should secure for them a place in which to live.

Land for Enlargement of Church, Chinkiang

\$3,200

In the rear of the church in Chinkiang is a property owned by Chinese which is very vital to our work. It is necessary for us to acquire this property in order to provide for proper church and Sunday School facilities. The land is now on the market and the opportunity for securing it must not be lost.

Church Building, Chinkiang

\$12,000

A modern church, with Sunday School facilities, Chinese pastor's home, reading rooms, day and night schools for boys and girls is essential to the work in Chinkiang. Toward this object \$4,000 has been provided by the Judson Centennial Fund. It is necessary to secure \$12,000 more in order to complete this most urgently needed church plant.

Land and Church Building for Second Baptist Church, Chinkiang

\$4,000

The Second Church, Chinkiang City, is located in a very important section and at a long distance from the other church. The need for a building in this section is very great. The land will cost \$800 and the building \$3,200.

Equipment for Out-Stations, Chinkiang

\$8,000

There are eight out-stations in the Chinkiang field. A number of these congregations are churchless, without homes for pastors or rooms for school work. This fund is needed to stimulate self-support and encourage the people to erect church buildings.

FLAG DRILL, ELIZA YATES GIRLS' SCHOOL, SHANGHAI, CHINA

Reconstruction of the Chinkiang Boys' School

\$1,600

This amount would enable us to reconstruct the present inadequate quarters for the Boys' School into a serviceable plant. The need ought to be met.

*Primary School in Mandarin Section, Central China
(Location to Be Selected)*

\$8,000

It has been decided to have in the Central China Mission a school, taught in the Mandarin dialect, for boys which would be developed into an institution of the Middle School grade. It is desired to start this as a Primary School and develop the same into a Middle School. The other schools in the Central China Mission are taught in the Shanghai dialect. The Mandarin-speaking section is immense and must have a school. The school will probably be located at Chinkiang.

Residence for Evangelistic Missionary, Yangchow

\$4,800

A new missionary family is to be sent to Yangchow for evangelistic work, and it is necessary to provide for them a residence in which to live.

Land and Church Building, Yangchow

\$9,500

The church, at present, is using an old adapted tea-house, which does not accommodate the congregation. It is very important that a church plant, with an auditorium, class, school and reading rooms be provided for this promising church. In addition to the above-named amount, the Judson Centennial will provide \$2,500.

Motor Launch to Ply Between Chinkiang and Yangchow

\$1,600

Chinkiang is fifteen miles from Yangchow down the Grand Canal, across the Yangtze River, toward Shanghai. The hospitals and schools serve both Stations. Passing is frequent, and a launch would have preserved Dr. Anderson's life.

Equipment Out-Stations, Yangchow Field

\$8,000

At present the nine homeless country churches around Yangchow

worship in Chinese dwellings, with dirt floors. We desire to coöperate with these churches in procuring suitable buildings in which to carry on their work.

Girls' School, Yangchow

\$5,500

This amount is needed to supplement the \$2,500 provided by the Judson Centennial for this Girls' School. The school is very much crowded. Nineteen girls sleep in one small dormitory room. The room is too crowded to have spaces between half the beds. The present building is in bad condition and has been repaired and braced in places. A new building is very urgently needed.

Equipment, New Station, Wusih

\$19,200

Wusih is an enterprising city of 200,000 inhabitants. It is the center of a thickly populated unevangelized territory. It is one of the largest rice and cocoon markets in China. There is a unique opportunity for Baptist work here. We are already doing an extensive out-station work around Wusih and should take hold of this new field in a vigorous way by locating a missionary on the ground and providing the following equipment:

Land for Compound.....	\$6,400
Church building	8,000
Residence for missionary.....	4,800

For Opening New Station, Rugao

\$16,800

The Central China Mission has been for many years eager to occupy territory around Rugao City, east of Yangchow, and the above-named amount is now requested in order that this field may be adequately occupied. Rugao is a city of 100,000 in a splendid country. There are eighteen market towns in this section. It is in a center of a thousand square miles, containing 5,500,000 people. In four adjoining counties we have work already. This field offers a great opportunity for evangelistic, school and hospital work, where we were pioneers and where we have five small churches. In these five counties we ought to reach with the Gospel great hosts of people. The above-named amount requested with which to open this new Station would be distributed as follows:

Land for Compound.....	\$4,800
Chapel building	2,400
Residence for evangelistic missionary.....	4,800
Residence for medical missionary.....	4,800

INTERIOR CHINA MISSION

PROPERTY NEEDS

Equipment, City Compound, Kaifeng
\$13,500

One of our finest opportunities for doing a great evangelistic work in a great city is on the property already secured in the center of Kaifeng. The multitudes pass by our doors. The missionaries are on the ground ready to do the work. The next step is to provide adequate equipment for the proper prosecution of this promising work. The \$13,500 requested would be used for the erection of the following buildings on the land already secured:

Boys' School Building.....	4,500
Girls' School Building.....	4,500
Woman's Work Building.....	4,500

Primary School Building, Kaifeng

\$8,000

In developing the school work in Kaifeng this building is a necessity.

Light and Power Plant, Kaifeng

\$2,000

Such a plant is necessary for the comfort and efficiency of the work on the School Compound.

Girls' School Building, Kaifeng

\$10,000

The Girls' School at Kaifeng is to be our only school in the Interior China Mission, giving high school and normal training for women. It is imperative that it have a building to be used for administrative and recitation purposes. The building used at present will then be used entirely for dormitory purposes and will provide for about one hundred girls. This is one of our immediate needs.

Home for Single Women, Kaifeng

\$2,400

The crowding of our young women workers in Kaifeng into undesirable quarters must be ended and provision made for a comfortable house for them.

Woman's Industrial and Bible School Building, Kaifeng

\$10,000

This money will be used to provide an Industrial School Building, which will include a Day Nursery, Kindergarten, Day School, Industrial Department, a Bible School for Women and a center for women's work.

Residence for Evangelistic Missionary, Pochow

\$4,000

A new missionary must be sent to Pochow to reinforce the Bostic families who have labored so long in that Station. It is essential that there be provided for the new missionary a residence in which to live.

Hospital Building, Pochow

\$8,000

Pochow is a city of 140,000 people. It is estimated that in this

region there are four million people. The nearest missionary doctor is forty hours away. We must protect the lives and health of our missionaries here, as well as prepare to minister to the multitudes in this region.

Woman's Hospital Building, Chengchow

\$2,800

We have a men's hospital building at Chengchow. It is necessary to build a woman's hospital because we must not neglect the medical needs of the women.

Residence for Doctor, Chengchow

\$4,000

An additional doctor must be sent to Chengchow and a residence must be provided for him.

Boys' School Building, Chengchow

\$5,000

In the development of our excellent Boys' Academy at Chengchow it is necessary to provide a building.

Residence for Educational Missionary, Chengchow

\$2,400

An educational missionary must be sent to aid in the work in Chengchow and it is essential that a residence be provided for him.

NEW MISSIONARIES

Doctor, Pochow	3,250
Doctor, Chengchow	3,250
Single Woman for School work, Chengchow.....	1,500

NORTH CHINA MISSION

PROPERTY NEEDS

For Enlarging Boys' School, Chefoo

\$2,500

This school has an enrollment of over one hundred pupils. There is absolutely no room for boarders or more day pupils. Further progress is impossible without more buildings. The Judson Centennial Fund will add \$1,500 to the above-named sum.

Remodeling Missionary Residence, Tengchow

\$1,600

It is necessary to remodel what is known as the Turner residence for the man in charge of the Boys' School. The walls of this house are damp and in its present state of repair it is not fit for occupation.

Church Building for Chao Yuen, Hwanghien

\$2,400

It is difficult to set forth the extreme need of helping the Chinese church at this place to secure a house of worship. The church is a small one, the membership poor, but heroic. They have a fine field in a county seat thirty miles from Hwanghien. This is an urgent need.

Church Building, Hwanghien City

\$16,000

For thirty years missionaries worked in Hwanghien before permission could be had to even rent a building in the city. Within recent years the door has been opened and a foothold gained inside. We now occupy a rented Chinese building, unsuitable and expensive. The money requested would erect a church building which would be run on the institutional plan.

Residence for Evangelistic Missionary, Hwanghien

\$4,800

The evangelistic worker for this field must have a place in which to live.

Enlargement of the Girls School, Hwanghien

\$9,600

The location and the present building of the Carter Girls' School are both very poor. The building is unsafe. It is necessary to move to a new location. The new building will cost \$6,400. Since this school is to be one of the Middle Schools of the North China Mission, it is necessary to have proper equipment. The \$3,200 for this purpose is urgently needed.

Equipment for Boys Middle School, Hwanghien

\$3,200

Since the Mission has decided to make the Hwanghien Boys' School of the Middle School grade, it is necessary for it to have the additional equipment requested.

Men's Hospital Building, Hwanghien

\$8,000

The present men's hospital is inadequate to meet the needs. With the \$8,000 requested the building must be enlarged and made very much more useful. The need is very urgent. This is our oldest medical work in China.

Equipment for Hospital, Hwanghien

\$1,700

This amount of money is needed for the equipment of the new building for men.

Residence for Doctor, Hwanghien

\$4,800

An additional doctor is to be sent to Hwanghien, and it will be necessary to provide him a place of residence.

Residence for Evangelistic Missionary, Lung K'eo

\$4,800

A new missionary is to be sent to Lung K'eo and will need a residence.

Equipment for Hospital in Laichow

\$1,700

We have two hospital buildings in Laichow—one for men and one for women—but they are poorly equipped.

Hospital Building and Equipment, Pingtu

\$7,000

It is quite necessary to move the present men's hospital building to higher and dryer ground. Money should be provided for this purpose at once so that it could be erected in connection with the woman's hospital which is being erected. This need requires very prompt attention. The woman's hospital has been made possible by the Judson Centennial Fund.

Residence for Missionary Doctor, Pingtu

\$4,800

An additional Doctor will be sent to Pingtu. A residence must be provided for him.

Residence for Evangelistic Missionary, Pingtu

\$4,800

This building is needed for the new Evangelistic Missionary who is to be sent to Pingtu.

For Development of Station, Taian

\$16,000

Taian has recently come under our Board from the Gospel Mission. The Station is a most promising one, if equipment is provided promptly. We need a plot of ground, at least five acres in dimensions, upon which we can erect a chapel, residences for the missionaries, a Boys School and a Girl's School building and evangelistic quarters for men and women. The need is great. Already the Girls' School has forty pupils, twenty-six of whom are boarders, and the Boys' School is a necessity. The money requested would be expended as follows:

Land for Compound.....	\$4,000
Walls around land.....	1,600
Girls' School building.....	3,200
Boys' School building.....	3,200
Residence for evangelistic missionary.....	4,000

Boys' Intermediate School, Laiyang

\$4,000

The equipment for this Station is almost nothing. We have been

renting for this school, but the quarters are very unsatisfactory, while the school itself grows in numbers and needs. It is in great need of a building.

Building for Girls' School, Laiyang

\$4,000

The work in this school must be built up from the ground. Equipment is necessary.

Residence for a Missionary, Laiyang

\$4,800

The Laiyang Station is in great need of a family for school and evangelistic work. Dr. and Mrs. Hearn are there alone and need help. This residence is necessary when the new missionary is sent.

Land and Residence for Missionary, Tsingtao

\$6,400

The city of Tsingtao has sprung into world notoriety during the recent war. It is a very important port. We have for many years had a church there. Many young men of our churches and schools in the interior go to Tsingtao for business reasons. It is a growing city, with the best harbor on the Shantung Coast, and with railroad facilities. We must place an evangelistic missionary there, and he will, of course, need a residence.

Hospital Building, Tsingtao

\$24,000

Money is needed to build a first-class hospital in this great city. There is no Mission Hospital there. The need is apparent.

Two Missionary Residences for Tsi Ning Chow

\$9,600

In this great city, second in size only to the capital of the Province, and one of the commercial centers in both old and new China, we have never had a missionary located. A thousand Christians, with no training, are pleading for a shepherd to lead them. There are nearly six hundred Christians in the four churches at Tsi Ning Chow and 500 more in the five churches to the east, which can be looked after from this city. This work was started by the Native Home

Mission Board and has outgrown the Board. Two families can run the school and evangelistic work. They, of course, would need residences.

Land and Missionary Residence, Dalny
\$6,400

We have, for a long time, had work in Manchuria, China. It is a wonderfully open field and needs supervision. One of our present missionary force will probably be transferred to this field soon. It is almost impossible to rent a building, so it is necessary to provide him with a residence.

Missionary Residence and Student Center, Tsinanfu
\$16,000

This is the capital city of Shantung. In it are thousands of students in Government and Christian schools. Many of our own students go there. This plant is greatly needed, and will be a great asset to our work. We will need a residence for our missionary and a building which will be used for a student center. This is a unique opportunity. The money will be used as follows:

Residence for missionary.....	\$6,400
Student Center	9,600

Equipment for Willingham College, North China
\$84,400

It has been decided to have a combined educational institution for North China, which will have Middle School, Junior College, Normal and Kindergarten Training School, Woman's Bible Training School, Industrial School, Girls' Middle School and Theological Seminary, in a point in the North China Mission soon to be fixed upon. By this combination of effort, it is hoped very much more efficient work in the various departments named can be done and the institution run on a very economical basis. Such an institution will perform a far-reaching service in our North China Mission field. The Judson Centennial has already provided some buildings and equipment necessary for this school. In addition to the amount provided by the Judson Centennial, the following is urgently needed:

Land for campus.....	\$24,000
Indoor equipment (benches, class rooms and laboratories)	12,000
Outdoor equipment (fences, outbuildings, etc.)..	4,000

Six residences (foreign members of the Faculty),	24,000
Building for Girls' Middle School.....	8,000
Buildings and equipment Theological Seminary (in addition to amount provided by Judson Centennial Fund)	10,000

NEW MISSIONARIES

PAKHOI CHINA MISSION

PROPERTY NEEDS

Compound, Pakhoi

\$7,500

Pakhoi is our newest Mission in China and should have aid as soon as possible, in order to put it on its feet. We should have land for a Compound, a residence for the missionary and a chapel in which he would do his work. The money requested would be distributed as follows:

Land for Compound.....	\$2,500
Church building	5,000

NEW MISSIONARIES

Family for Educational work.....	\$3,000
----------------------------------	---------

CHINA BAPTIST PUBLICATION SOCIETY, CANTON, CHINA

SOUTH CHINA MISSION

PROPERTY NEEDS

Church Building on Compound at Canton

\$36,000

The present Church building does not accommodate even the student body of one thousand, which is rapidly increasing. We need a building that will seat three thousand people, thus enabling us to provide for the large student body and for reaching many people who are building rapidly in our community. This request stands out as one of the great needs of our South China Mission. The Chinese will contribute twelve thousand dollars, in addition.

North Gate Chapel, Canton

\$2,000

People in this community are Hakkas and the students from the Hakka Department of Graves Seminary use this place as a center for evangelistic work. Hence its importance, not only for reaching the community with the Gospel, but as a practical training station for our Theological students.

Administration Building for Girls (Pooi To) High School, Canton

\$22,000

Our educational work for girls in South China heads up in the Pooi To Girls' High School. This building, therefore, would serve all South China for High School work for girls. It is exceedingly important that this leading School should have an adequate class room and administration building for its work.

Dormitory for Girls (Pooi To) High School, Canton
\$15,000

Class rooms are not enough. The girls must have a place in which to live while in school. Hence this necessary request.

Normal School Buildings, Pooi To Girls' School, Canton
\$26,400

One of our greatest needs is for trained teachers to work in schools connected with our country chapels. The Normal School will enable us to supply this need. The students are ready to fill the buildings.

Building for Woman's Missionary Training School, Canton
\$5,600

The South China Mission has founded a Woman's Missionary Training School after the fashion of the Woman's Missionary Training School in Louisville, Ky. A large part of the work will be done in connection with Graves Theological Seminary, but those women must have a building in which to live and do their work. From this institution will come in the future many efficient Bible women.

*Gymnasium and Dining Room, Graves Theological
Seminary, Canton*
\$11,200

This building is an urgent and important need. The Judson Dormitory will soon be completed, but no provision has been made for a Dining Room. Since for several months of the school year it is too wet in Canton for outdoor exercise, a Gymnasium is much needed to aid in keeping up the health and vigor of our students. The physically strong are mentally alert.

*For Development of Work, China Baptist Publication
Society, Canton*
(Annually) \$15,500

This Publication Society is our great agent for the distribution of the Word of God and Christian literature in China. It has a splendid plant in Canton and is rendering a missionary service of the first importance. Its field is unlimited, its opportunities unparalleled. In addition to the sum that is now being annually spent upon this Society, we need the above-named sum distributed as follows:

For printing and circulating the Scriptures, annually	\$8,000
Salaries of Chinese Translators and Writers, annually	5,000
Campaign of Education and Indoctrination, annually	2,500

Residence for Evangelistic Missionary, San Wooi
\$3,500

We have already asked the missionaries in this field to live too long in cramped Chinese quarters. They must be given a comfortable house in which to live.

Hospital, Kweilin
\$16,000

Dr. Mewshaw and his native co-worker, Dr. Ngeo, have developed the medical work in Kweilin to such a point that a hospital is necessary. Dr. Mewshaw has acquired the language and is now ready to render full service. It is hardly possible to find a place where a more far-reaching medical service can be rendered than through a hospital in Kweilin.

Residence for Evangelistic Missionary, Wuchoꝛ
\$3,500

A new missionary must be sent to Wuchow to help in the evangelistic work. This new missionary will need a residence at once.

Hospital, Wuchow
\$35,000

We have at Wuchow one of the greatest medical opportunities to be found anywhere. This Hospital will serve a vast population, and when the building is completed will not only be self-supporting, but will contribute largely to the evangelistic work in that region. The foundation and first story of the building have been erected, and it will be a great pity for the construction work to be discontinued. Many patients are now being turned away for lack of room. This need is critically urgent.

Land and Residence for Evangelistic Missionary, Nanning
\$10,000

Nanning is the capital of Kwong Si Province and provides a splendid opportunity for church and school work. It is the purpose of our South China Mission to open this as a new Station as soon as possible, and the above amount is needed to start the work.

NEW MISSIONARIES

Music Teacher, Girls' School, Canton.....	\$ 1,500
Kindergartener, Canton	1,500
Two Families for Educational work, Boys' School, Canton	6,000
Family for Hakka Department, Graves Theological Seminary	3,000

BAPTIST BOYS' SCHOOL (*in front*), GOVERNMENT BOYS' SCHOOL (*in background*), WUCHOW, CHINA
(An Instructive Contrast)

EUROPEAN MISSIONS

PROPERTY NEEDS

Lot, Chapel and Pastor's Quarters, Florence

\$25,000

This city of 200,000, one of the greatest art centers in Italy, holds a place second in importance only to Rome itself. It is vain to hope for very great success in missionary effort in a rented hall in a cultured city like this. A neat chapel would give our work here a tremendous impetus. For \$25,000 we can buy a lot and erect on it a chapel and quarters for the pastor.

Land and Building for Theological Seminary, Rome

\$85,000

Now that the war is over, we expect to put our Theological Seminary again into full operation. The new day requires trained men to meet its needs. Never was a Theological Seminary in Rome more necessary. We should face the fact that it is impossible to accomplish the work we want to do in this Seminary without ample quarters. We ought to erect in Rome a great building that would impress itself upon the community. When we think of the city in which the institution is located and the problems it has to face, the amount here requested is very, very modest. This need ought to be met promptly.

Completion of Church Building, Prague, Bohemia

\$12,000

Before the war property had been acquired in Prague, and the local church had assumed large obligations. Out of the Judson Centennial Fund \$3,000 was sent to help the church in erecting its building. The war interfered with the operations. It is necessary now that the building be completed, and we must have the \$12,000 here requested with which to do this work. This is a most important and a most vital need.

JAPAN BAPTIST CONVENTION AT KUMAMOTO BAPTIST CHURCH, JAPAN

JAPAN MISSION

PROPERTY NEEDS

Land, Chapel and Residence for Missionary, Nagasaki
\$11,500

Surely, in the greatest seaport of Japan, we ought to have a respectable church and, in addition, a comfortable house in which the missionary in charge of the Station can live. Of the amount requested above, \$6,500 is needed to supplement \$2,500 already provided in the Judson Centennial Fund for the Church. The remaining \$5,000 would be used for the purchase of land and the erection of a missionary residence.

Land and Chapel, Kokura
\$3,000

In Kokura for a long time the church has used a remodeled Japanese building, which is too small, too dark and in need of repair. Recently the old quarters were sold for \$4,700, and we are requesting

\$3,000 to supplement that received from the sale of the old property, in order that a good church building may be erected on land we already own near our missionary residence.

Land and Residence, Yawata

\$5,000

Yawata is a great industrial city. The Government Steel Mills are located here. The members of the Church are awake and need encouragement. They will raise a considerable sum to supplement the above-named amount. This need should be met at once.

Land and Chapel Building, Wakamatsu

\$5,000

It is said that ten thousand boats make their home in the Bay of Wakamatsu. It is one of the greatest coal markets in the world. Calder Willingham was greatly devoted to this field. The enterprising church is altogether worthy of the encouragement here requested.

Land and Chapel, Kure

\$5,000

Kure has a population of 125,000. It is one of the three important naval bases in Japan. Here the largest Battle Ships in Japan are built. Last summer a prominent factory owner was converted, and immediately after his baptism he deposited in the bank \$250 as a contribution toward building a chapel. This is the largest contribution ever made by a Japanese for the support of our work. The chapel building requested is very urgently needed.

Land and Chapel, Omuta

\$5,000

Omuta is a very important city in the Kumamoto region, with a population of over 50,000. The work is new and difficult. There is great need of the land and chapel requested.

Kindergarten, Kagoshima

\$2,000

This modest sum would provide kindergarten equipment in the important city of Kagoshima. The opportunity for service through this kindergarten is very great.

Missionary Home, Kagoshima

\$4,000

The Medling family is living in a rented Japanese house. When money was available for the work in Kagoshima Station they put it into a church building. A mission residence should be built for this Station.

Kindergarten, Sasebo

\$2,000

A kindergarten would greatly strengthen and encourage the congregation in Sasebo. The church is of a character that would make it use helpfully this equipment. This city is one of the great naval ports of Japan.

*Evangelistic Plant—Land, Chapel, Missionary Residence
and Parsonage, Hakata*

\$15,000

Hakata is the business section of Fukuoka. It is very urgently desired to build an evangelistic plant in this section, which may be used for night school, kindergarten and preaching place. Here also would be erected houses for the pastor of the church and for the resident missionary. The purpose is to have preaching every evening, making extensive use of the students in our proposed Theological Seminary. This would provide them with needed experience and training for evangelistic work.

For Development, Boys' School, Fukuoka

\$49,250

We have an excellent Boys' Academy at Fukuoka, which must be developed as the central school to take care of our educational work for boys in Japan. There must be added several years to the course this school is now providing. We must do this in order to prepare properly our ministerial students, and at the same time we can be educating Christian laymen. At Fukuoka also is to be located the Theological Seminary. To take care of these schools we must add at least four more acres to the present campus. We have in hand \$12,500 for land for the Seminary. To this we must add \$12,500 more in order to secure the land needed for these two schools. The \$30,000 requested for the main building for the Boys' School must be

provided by March, 1920. It is hardly possible to overemphasize the necessity of having at Fukuoka a first-class school of the character here outlined. The amount requested for the development of this school will be expended as follows:

To pay half the cost of four additional acres of	
land	\$12,500
Main School Building, Boys' School.....	30,000
Science Building, Boys' School.....	3,000
Enlargement Boys' School Gymnasium.....	2,000
Residence for Principal, Boys' Academy.....	750
Wall in front of Boys' School buildings.....	1,000

Girls' School, Kumamoto

\$7,500

It will be necessary to supplement the sum raised in the Judson Centennial Fund with the \$7,500 requested here. The Judson Centennial Fund will provide the land and \$12,500 on buildings, but it will be necessary to have \$7,500 more in order to put up the buildings necessary for the opening of the school. This Girls' School is a new enterprise and is of prime importance to our missionary work in Japan.

Evangelistic Plant, Tokyo

\$40,000

While we were coöperating with our Northern Baptist brethren in conducting a Theological Seminary in Tokyo, our missionaries inaugurated a prosperous evangelistic work in that great city. The Mission is very decidedly of the opinion that we should continue our work in the capital. A great many of our members from the Kyushu field, far to the South, go to Tokyo. These should be looked after. Besides, Tokyo is one of the greatest cities in the Orient, and our cause will be greatly strengthened by developing an evangelistic work in the capital of the Empire. It will be necessary to provide the missionary with a home, a chapel and a Student Hostel. There is opportunity for far-reaching service in conducting a student home under Baptist influence. The \$40,000 requested for this Tokyo enterprise would be used as follows:

For land	\$12,500
Residence for Missionary.....	5,000
Church Building	10,000
Student Hostel	12,500

NEW MISSIONARIES

Family, Evangelistic work, Kokura.....	\$3,000
Family, Evangelistic work, Kumamoto.....	3,000
Family, Evangelistic work, Hiroshima.....	3,000
Family, Evangelistic work, Yamaguchi.....	3,000
Family, Evangelistic work, Sasebo.....	3,000
Two families for Educational work, Fukuoka....	6,000
Single Woman for Music and Domestic Science..	1,500
Kindergartener for Girls' School.....	1,500

MEXICAN MISSION

PROPERTY NEEDS

High School and Theological Training School, Aguas Calientes
\$25,000

The Northern and Southern Baptists are conducting now a very successful and satisfactory Bible Training School in Saltillo. Even under the present trying circumstances in Mexico this school is succeeding splendidly. It is proposed to locate the school at Aguas Calientes, which will put it within easy reach of the men of both Missions. There we will have, in addition to the Bible School, a High School for the literary training of the young men. A plant is necessary, our share of which will be the amount here requested.

Boys' School, Toluca
\$5,000

It has been decided to have several Boys' Schools of the Grammar School grade, from which will come many students who will take the higher training in the High School and Bible Training School. One of these schools is to be located at Toluca, where already we have done successful school work.

Church Building, Toluca
\$5,000

The church we are now using in Toluca is very badly located. We are in great need of a church building in that city, which is the capital of the State of Mexico. It is probable that a building will be available quite soon, which will be just the thing for our church. We should be in position to take advantage of our opportunity.

Church Building, Guadalajara
\$5,000

Something should be done towards providing better church facilities at Guadalajara. The building we now use is inadequate and unattractive. It is necessary that we provide a house in order to take better care of our work in this, in many respects, the most attractive city of Mexico.

Church Building, Atoyac

\$2,500

We have a promising work at Atoyac that would be greatly enlarged and helped if the \$2,500 here requested could be provided for the purchase of a lot and used toward the erection of a church. The pastor here has made great sacrifices in order to provide for a place of worship. We ought to meet his spirit and help him put the church on its feet.

Girls' School, Saltillo

\$10,000

It will be necessary to reconstruct our school work for girls in Mexico. In this reconstruction, which we hope can take place quite soon, we must have at least one good Girls' School. This school will be located at Saltillo. The school property we own at Saltillo has been commandeered by the Government and greatly abused. The amount here requested, and probably more, will be needed.

Mexican Baptist Publishing House

\$25,000

Our Mexican Baptist Publishing House has been moved temporarily to El Paso, Texas, where it is doing an excellent work. As soon as conditions settle in Mexico the House will be moved back within Mexican territory. Whether the House remains at El Paso or is moved back into Mexico, it needs for equipment \$12,500. In addition to this, we need very greatly \$12,500 to produce and circulate Christian literature. There is a wonderful opportunity for pressing a literature campaign at the present time.

SUMMARY OF NEEDS

The needs enumerated above total:

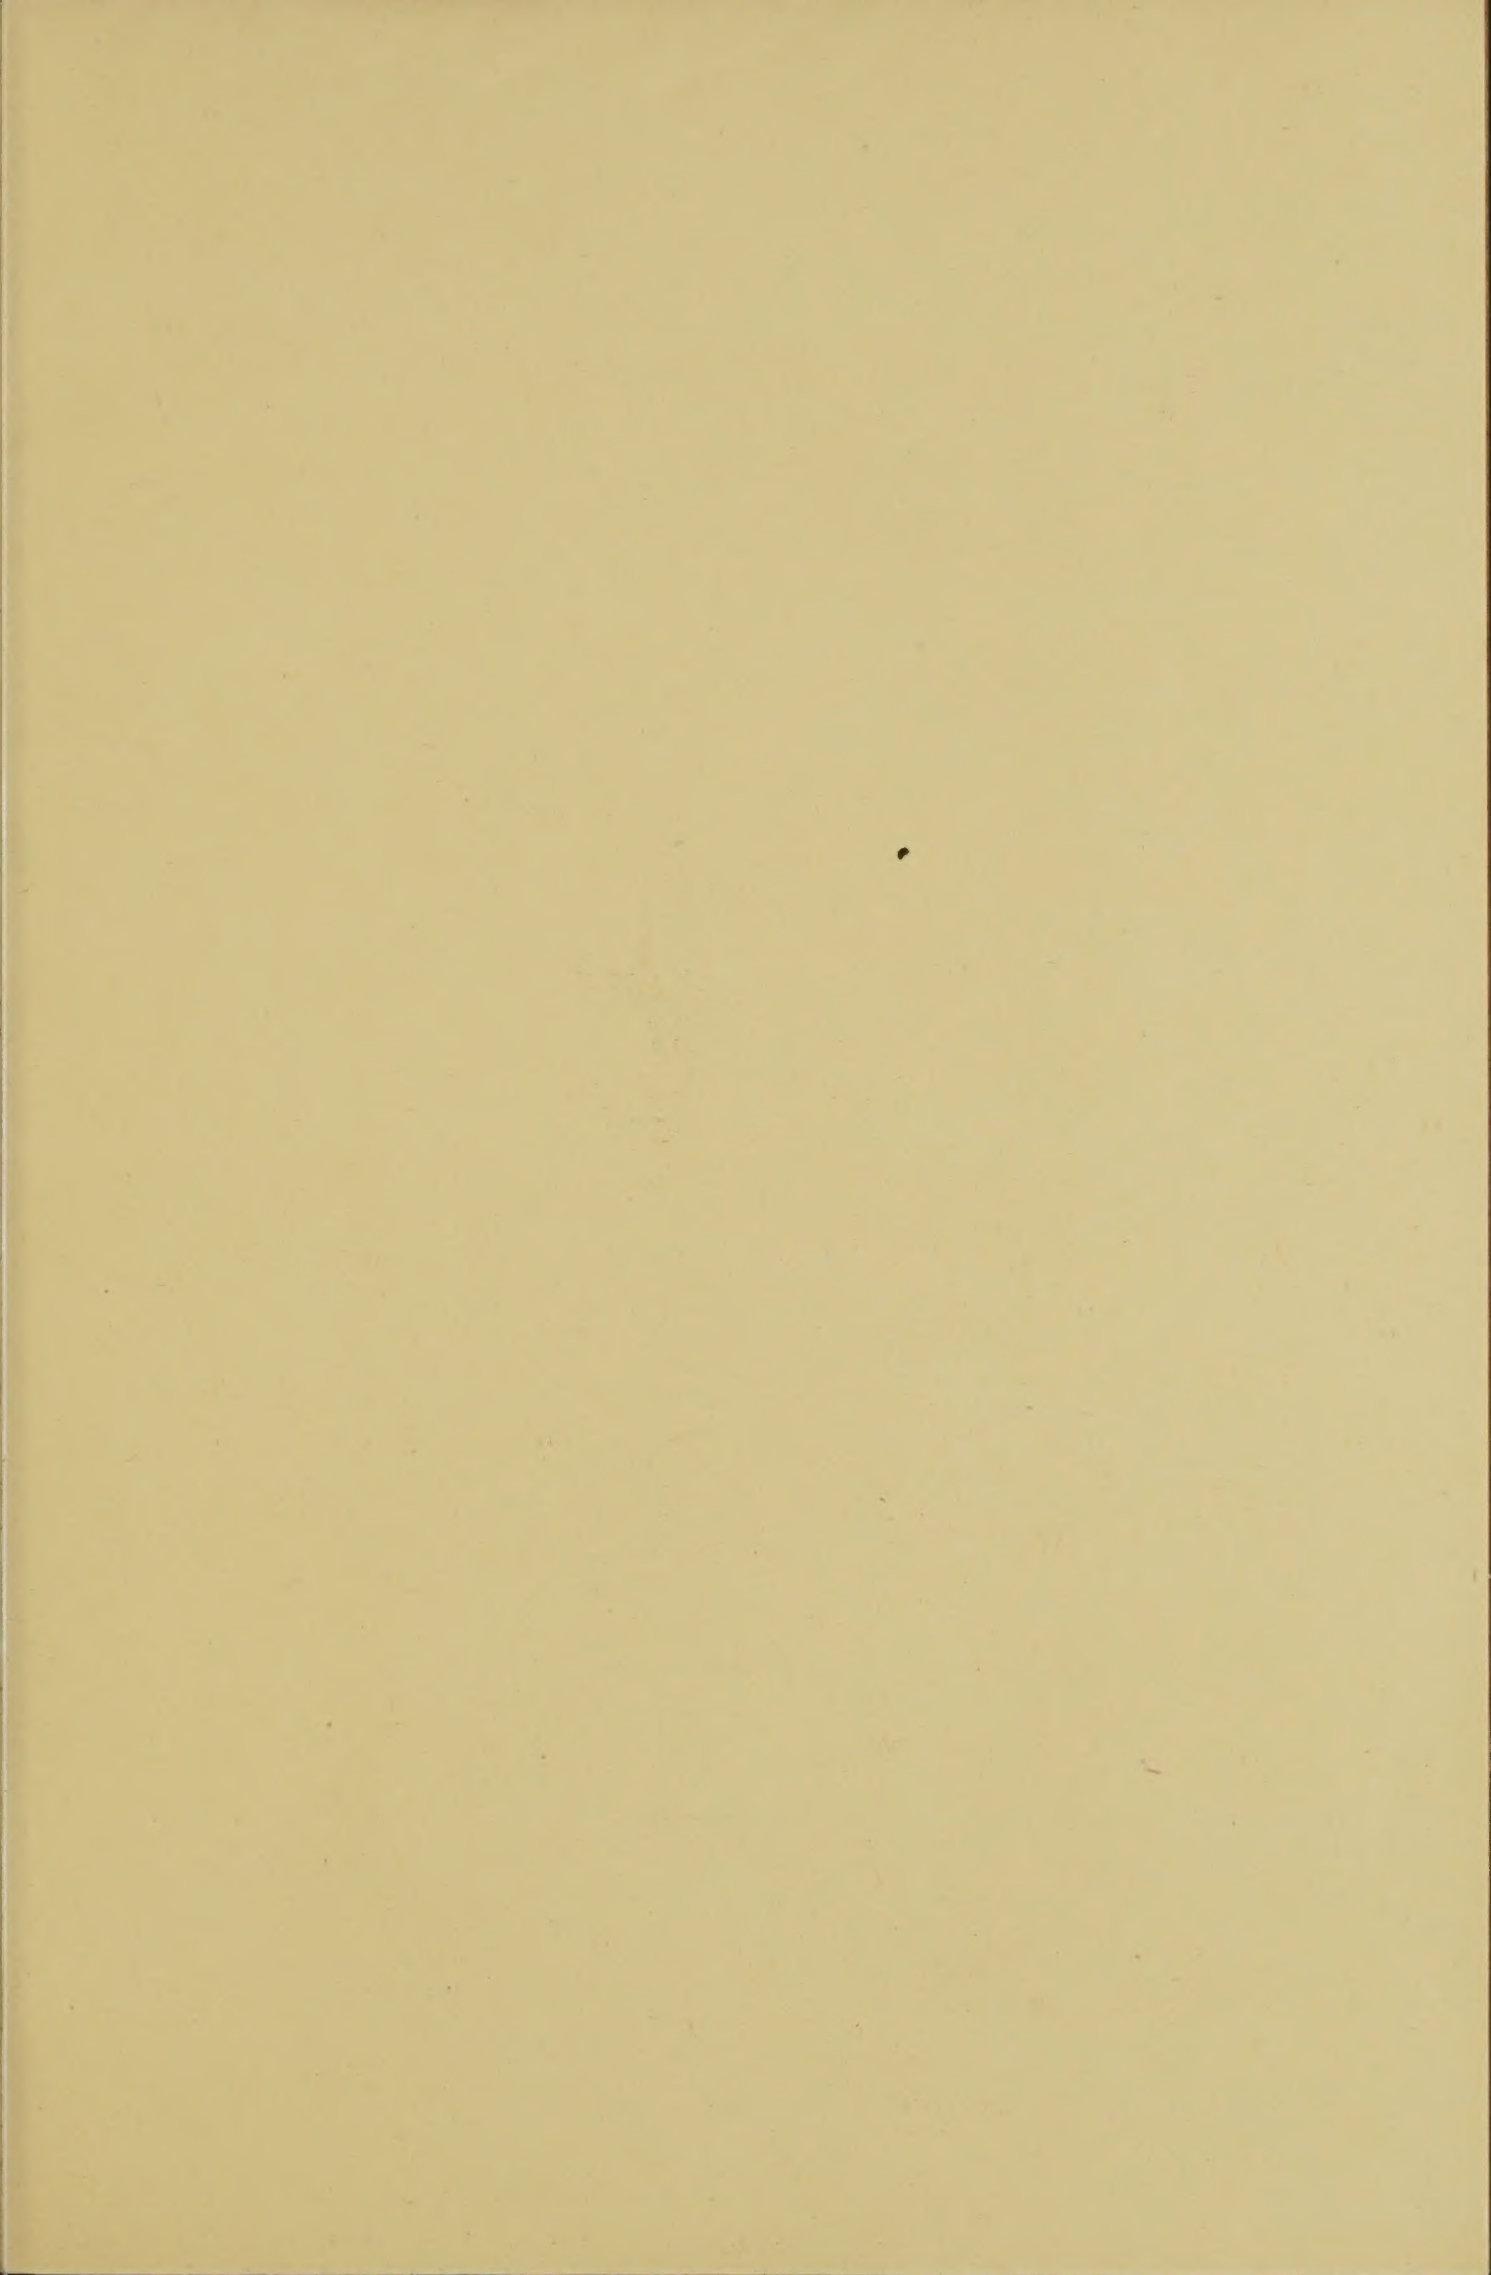

For property	\$1,872,750
For 197 new missionaries.....	308,250

\$2,181,000

The annual maintenance of the work..... 2,000,000

\$4,181,000

The \$2,000,000 annual maintenance fund for this year would include \$55,000 for new work, \$50,000 for reconstruction work in Europe, the current support of the work in all fields and a provision of \$50,000 for certain emergencies which are sure to arise out of changing conditions during the year.

THE WILLIAM BYRD PRESS, INC., RICHMOND, VA.
